(a) Range dependence
Return power (W)
Range r (m)
$\rho_d = 0.05$
$\rho_d = 0.30$
$\rho_d = 0.85$
(b) Diffuse incidence
Relative power P/P(0)
Incidence angle (deg)
(c) Atmospheric loss
Power / clear-air power
Range r (m)
Clear air
Rain
Fog
Analytic power
Simulated power
